CERTIFIED LETTER - RETURN RECEIPT REQUESTED

Mr. John Selva
Grumman Aerospace Corp.
Mail Stop B08/30
Bethpage, New York 11714

Re: Spill #82-0923, Grumman Calverton Fire Training Area

Dear Mr. Selva:

This office has reviewed the June 1995 monitoring report submitted by the Miller Environmental Group, Inc. for the above referenced location. This report shows seven monitoring wells with floating product, and monitoring well #12 containing approximately one foot of product. Therefore, based on this information, this office requests that the site be re-evaluated and efforts be made to maximize the recovery of floating product.

Please contact this office by August 21, 1995 and inform me what actions you will be taking.

Sincerely,

Walter J. Parish
Walter J. Parish, P.E.
Environmental Engineer II
